

WARRANTY

LIMITED WARRANTY

Innovative Product Concepts, LLC ("the Company") warrants to the original purchaser of the MTB-1/LTB-1/MTB-1G/SPB-1/SPB-2 that it will be free from defects in materials and workmanship for a period of 1 (one) year from the original date of purchase. If a defect exists that is covered by this Limited Warranty, the Company will, at its sole option, (i) repair the product at no charge, using new or refurbished replacement parts, (ii) exchange the product with a product that is new or which has been manufactured from new or serviceable used parts and is at least functionally equivalent to the original product, or (iii) refund the purchase price of the product. A replacement product/part assumes the remaining warranty of the original product or ninety (90) days from the date of replacement or repair, whichever provides longer coverage for you. When a product or part is exchanged, any replacement item becomes your property and the replaced item becomes the Company's property. When a refund is given, your product becomes the Company's property. All warranty returns must be sent postage and insurance prepaid.

LOCKING TRAVEL BAG

Setting the Combination Lock

Your Locking Travel Bag has been set with a default security code of (0-0-0) from the factory. You may keep this code, however, for added security, we recommend that you re-set the combination using 3-digits of your choosing by using the following instructions:

Step #1 | Turn the 3 digit combination (B) to the factory default position 0-0-0. Next, press down the combination reset button (A) on side of the lock.

Step #2 | Turn each of the numbered dials to your new desired 3 digits combination (B) while keeping the reset button (A) pressed in.

Step #3 | Write down your new 3 digit code. Release the reset button (A). Then press the lock open button (C) to set the new combination. The lock is now set to your personal combination.

Locking your Travel Bag

Step #1 | Turn the numbered dials to your preset combination (B).

Step #2 | Insert the top of each zipper into the locking mechanism (D). You will hear a snap each time you insert the zipper properly into the locking mechanism.

Step #3 | Turn the numbered dials (B) around to a random combination and you will have locked the Travel Bag successfully.

Un-Locking your Travel Bag

Step #1 | Turn the numbered dials around to your preset combination (B).

Step #2 | Press down the release button (C). You will hear a snap releasing both zippers and you will have opened the locking mechanism (D) successfully.

Make a note of your personal combination and keep it at a safe place!

NOTE: Your Medication Travel Bag does NOT include a TSA key as this feature is intended for exclusive use by the TSA Customs Authorities.
