

Thank you for supporting Prince Lionheart, family owned and operated since 1973. In order to get the best performance from our products, please read the following instructions and warnings carefully.

## **WARNING:**

This product is not a toy. Do not allow children to play with it.

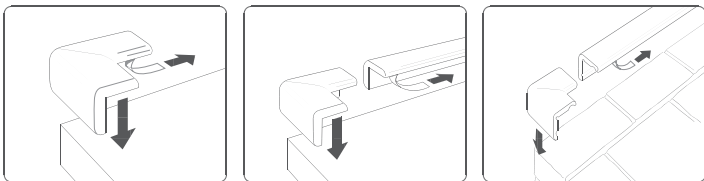

This product is not a substitute for proper adult supervision.

### **CAUTION:**

Prince Lionheart has partnered with 3M to provide an adhesive tape capable of securely fastening the foam to most of the different types of materials commonly used in home furnishings. Care should be exercised when applying the foam, as this bond may actually mar or damage some delicate finishes. If in doubt, we recommend first testing, by applying a piece of the foam to a less visible area of the furniture and waiting 48 hours before removing. Prince Lionheart makes no warranty, either expressed or implied, that surface damage may not occur.

### **Proper Use:**

**I. How to install:** see diagrams

### **II. How to remove:**

1. Carefully remove guards, then remove tape slowly.
2. Use Acetone or vegetable oil (for wooden furniture) to remove adhesive residue. Please test by first applying on a small and less visible area to avoid damage on the finishing or coating of the furniture.
3. Use soft cloth and furniture polish to wipe clean.

### **To clean:**

Wipe clean with damp cloth.

### **To Maintain:**

Do not use when damaged or torn. Do not apply solvents or other degradable agents.
